Hello,

I am writing to express my interest in the Software Engineer position at Zepto. With a strong background in software engineering and experience working with Ruby on Rails and Golang, I am confident in my ability to contribute to your team.

I am passionate about building scalable, high-quality software and am always looking for ways to improve both my skills and the projects I work on. I believe my expertise, combined with my commitment to continuous learning, makes me a strong fit for your team.

In my current role, I have successfully built and maintained robust applications using Ruby on Rails for the backend while leveraging Golang to handle highly concurrent, performance-critical processes. My experience includes working with RESTful APIs, microservices architectures, and deploying cloud-native solutions. I enjoy tackling complex problems and ensuring that the software I develop is scalable, maintainable, and secure.

Thank you for considering my application. I look forward to the opportunity to discuss how I can contribute to your company's success.

Sincerely,
Maksim Lukin
